

Le mois des bébés plantes

Baby Plants Month

NEMATHANTHUS
GOLDFISH

Nematanthus is commonly known as the goldfish plant because of the distinctive shape and bright colour of its flowers. Did you know it belongs to the same family as African violets? With its semi-trailing habit, it relies on good light exposure to bloom, so be sure to place it in a bright spot to show it at its best.

Light

High

Watering

Allow the growing mix to dry between waterings.

Watch for

Monitor for mealybugs.

Tips & tricks

Pruning about one third of the plant once a year helps maintain a compact, rounded shape.

BABY PLANTS
