

Le mois des bébés plantes

Baby Plants Month

PEPEROMIA ANGULATA

One of the many members of the Peperomia family, this variety has a trailing habit that makes it ideal for small hanging baskets. Its foliage is a bright green with subtle variations in tone. It also features an unusual bloom, producing creamy white, pollen-covered spike-like flowers.

Light

Moderate to medium

Watering

Allow the top few centimetres of the growing mix to dry between waterings.

Watch for

Avoid overwatering, which can lead to root rot.

Tips & tricks

This plant prefers bottom watering or soaking.
