

Le mois des bébés plantes

Baby Plants Month

SENECIO
STRING OF PEARLS

A cascade of small, round green beads trailing gracefully from the pot. Like other succulents, this plant needs a very bright location, ideally near a sunny window, to meet its light requirements. String of Pearls has a small root system, so it prefers a relatively narrow pot.

Light

High, full sun

Watering

Allow the growing mix to dry completely between waterings.

Watch for

The plant may show signs of rot if overwatered.

Tips & tricks

Prune and propagate the long stems regularly to prevent the top of the pot from becoming bare.

BABY PLANTS

IN SUPPORT OF NEONATAL RESEARCH AND CARE

Thank you for helping extremely premature babies grow up healthy
